Subject: RE: Time to Apply question

Good afternoon Julianne,

I was wondering, I had a November 1st, 1:30 till 2:30 Conference call on my calendar. Are we still going to have that? If so, do you have any questions or agenda items?

Thanks!

Subject: Time to Apply question

Hi Kevin –

During our call this past Monday, you asked what the federal requirements are regarding time to apply for storm water permits. The time to apply requirements can be found at 40 CFR 121.21(c). For a CAFO proposing a new discharge of storm water associated with industrial activity, a permit application shall be submitted 180 days prior to commencement of the industrial activity which may result in the discharge of storm water. For storm water discharges associated with construction activities [specifically those described under 40 CFR 122.26(b)(14)(x) or (b)(15)(i), which will likely be the types of construction activities at AFOs] a permit application shall be submitted at least 90 days before the date on which construction is to commence.

Let me know if you have any questions.

Julianne
